

## REMARKS

This preliminary amendment under 37 CFR 1.115 amends 10 of the original 33 claims (1, 4-6, 9, 13, 21-23, and 28) in this application. In addition, new claims 34-51 have been added.

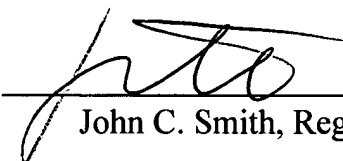

The amended claims correct some informalities in the originally filed claims. The new claims 34-51 are method claims directed to how the I/O devices are used as a multimedia interface between a computer and a computer user.

In addition, a fee statement and the fee for the additional claims are attached.

Applicants' Attorney thanks the Examiner for the Examiner's help in prosecuting this invention. Applicants' Attorney has been careful to avoid the introduction of new matter.

Respectfully submitted,

By:
